PLUG RUG DRAIN COVERS

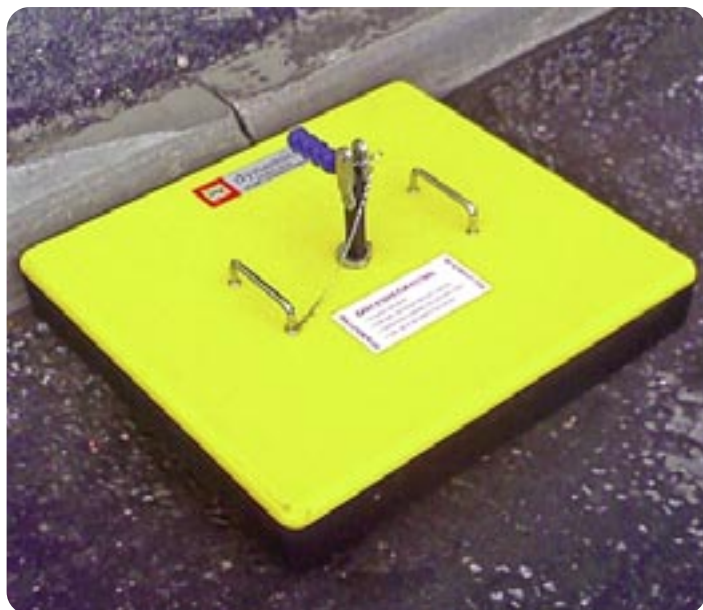

Plug rugs are flexible mats consisting of a putty like layer of a clay based composition, reinforced with hessian and with a peel-off plastic backing. Laid over drains, storm sewer inlets or around pipe runs, plug rugs will seal off and prevent a spill entering the drains. They can also be used for blocking large holes or rips in tankers and will even form a seal when fuel or chemicals are already flowing over the surface.

PRODUCT CODE	SIZE	PACK SIZE	PRICE
Plug Rug Drain Covers			
DRP8006	65 x 45 x 2cm	4	£145.00
DRP8007	40 x 40 x 2cm	4	£101.00

**DRAIN COVERS CREATE A SEAL
OVER DRAINS TO KEEP
UNWANTED LIQUIDS OUT**

MECHANICAL DRAIN COVER

Polycarbonate and stainless steel construction with neoprene foam seal. Three sizes are suitable for most drains. Clamp mechanism locks onto the drain itself.

- fast, effective pollution seal for drains
- very quick and easy to deploy
- immediate, full protection

WALL MOUNTED HOLDER

Use with any size of mechanical drain cover. Ensures quick visibility in case of an emergency.
