

POLYETHYLENE DRUM BUND AND STACKER

This versatile system maximises floor space by allowing you to stack up to 4 x 205ltr steel drums horizontally above a one-piece 400 litre sump.

Dispense from any of the drums in the safe knowledge that any leaks or spills will be contained.

205LTR DRUM HARDCOVERS

A sturdy solution to indoor or outdoor storage of either 2 or 4 x 205 litre drums.

Bunded and weatherproof with roll top design allows maximum use of minimum floor space. Top or front loadable units are lockable with an optional poly-ramp.

SUMPS FOR INDIVIDUAL PALLET LEVELS

BE PRO-ACTIVE. TURN STANDARD PALLET RACKING INTO BUNDED RACKING.

This guarantees segregation of water pollutants and materials that require selective isolation. Made from polyethylene, they sit across the beams and the pallets then sit inside the bund. A simple way of stopping leaks from spreading.
