

OIL SAFE CONTAINERS - FLUID HANDLING PUMPS

These compact, ergonomically designed containers are available in 5 different sizes. Made from Food Grade polyethylene they will withstand the harshest conditions inside or out.

All the various lids and containers are fully interchangeable to ensure a versatile system, and the lids are colour coded to identify different applications. Quick twist lids completely seal the open containers and a vent button on the spout allows for the free flow of the lubricant.

FEATURES INCLUDE:

- Wide drum openings that allow quick non-spill filling
- Clear containers with measurement graduations that make fluid levels easy to monitor
- Protection from lubricant contamination
- Reduces spills and resulting accidents
- Colour coded storage of different grades
- Minimises waste

POLY SPILL CART

A simple, fast and effective solution for cleaning up oil spills in the workplace or treating snow and ice on pavements and roads.

HOW DOES IT WORK?

- Fill the poly cart bin with treatment materials (absorbent granules or salt/grit) and attach a waste bag to the bag holder
- Wheel the poly cart direct to the treatment area
- Spread materials over infected area as per supplier's instructions
- For spills - once spill has been absorbed scoop up the granules and empty into the waste bag
- Wheel the poly cart to waste disposal area and dispose of waste safely

ABSORBENTS
OR SALT

PRODUCT CODE	DESCRIPTION	SIZE (MM)	PRICE
POLY 11073	Spill Cart	710L x 1360W x 965H	£449.00

OVERPACK SALVAGE DRUMS

Ergonomically designed for ease of use these units have a simple 'twist off' lid that enables the secure storage and containment of solids and hazardous liquids.

Two sizes (25 or 205 ltrs) convert drums from 25 to 205 litre capacity and all units are fully UN and US DOT transport approved. External moulded areas allow for easy gripping and pick up by material handling equipment.

PRODUCT CODE	DESCRIPTION	DRUM SIZE	CAPACITY	PRICE
POLY 11001	Salvage Drum	25ltr	114ltrs	£72.00
POLY 11003	Salvage Drum	205ltr	361ltrs	£198.00

POLY DRUM DOLLY

A safe and robust solution to moving 205 litre drums and smaller containers. This polyethylene trolley has four castors (2 lockable) and gives a broadband resistance to chemicals. Its ergonomic handle makes for easy movement and its 30 litre sump captures any incidental spills.

POLY TROLLEY

A 4-wheeled trolley designed to carry four 25 litre containers in complete safety. Its recessed deck ensures that spills and drips are captured in its generous 100 litre sump.
