

POLY SPILL CART

A simple, fast and effective solution for cleaning up oil spills in the workplace or treating snow and ice on pavements and roads.

HOW DOES IT WORK?

- Fill the poly cart bin with treatment materials (absorbent granules or salt/grit) and attach a waste bag to the bag holder
- Wheel the poly cart direct to the treatment area
- Spread materials over infected area as per supplier's instructions
- For spills - once spill has been absorbed scoop up the granules and empty into the waste bag
- Wheel the poly cart to waste disposal area and dispose of waste safely

FOR LOOSE
ABSORBENTS
OR SALT

PRODUCT CODE	DESCRIPTION	SIZE (MM)	PRICE

OVERPACK SALVAGE DRUMS

Ergonomically designed for ease of use these units have a simple 'twist off' lid that enables the secure storage and containment of solids and hazardous liquids.

Two sizes (25 or 205 ltrs) convert drums from 25 to 205 litre capacity and all units are fully UN and US DOT transport approved. External moulded areas allow for easy gripping and pick up by material handling equipment.

PRODUCT CODE	DESCRIPTION	DRUM SIZE	CAPACITY	PRICE
POLY 11001	Salvage Drum	25ltr	114ltrs	£72.00
POLY 11003	Salvage Drum	205ltr	361ltrs	£198.00
